

COME TO PRICE ON JULY 4TH, SOMETHING DOING ON THAT DAY

ADVERTISE

There is much advertising value in the Sun. The merchant who has a good product to sell, or to do visiting about the neighborhood, in business, may make quite a reputation for himself, but when it comes to a general business ability, he will probably be unable to deliver the goods. The moral is—ADVERTISE.

DOWNWARD TREND TO CATTLE MARKET

RECEIPTS LIBERAL AND PRICES SPREAD ACCORDINGLY.

Prime Grades Held Steady, and Short and Grass Fat Steers Were Off Twenty-Five to Thirty-Five Cents—Demand for Sheep Last Week Was Active—Lamb Under 11 Cents.

By the Special Service.

KANSAS CITY, Mo., June 28.—The cattle market was most of last week was downward. Receipts were liberal, quality showed a plain case of overkill, and the spread in prices was accordingly. Prime grades held steady, and short and grass fat steers were off twenty-five to thirty-five cents. This decline caused a falling off in the movement today, and moderate strength appeared in the trade. Here receipts were three thousand less than a week ago and the same as a year ago. Most of the grass fat and short fed steers sold at \$12.25 to \$13.50, and better grades brought \$13.75 to \$14.50. Nothing really prime was offered. On the carcass side steers sold at \$6.00 to \$8.15. With wheat harvest well under way in Southern Kansas, and grading northward, and Tuesday of next week a national holiday, common men say supplies will be well until nearly the middle of July, and butchers have not changed much in price, and today they were a active demand. Veal calves are ranging \$7.00 to \$11.00 and bulls \$10.00 to \$14.00. This is a slack season for stock and feeding cattle, but the weather is finding a ready outlet at \$7.25 to \$8.50.

Demand for sheep last week was active, but today killers took off twenty-five to fifty cents and put the price for lambs under eleven cents. The bulk of the offerings today came from the Southwest and were spring lambs that sold at \$10.25 to \$11.50. Some clipped ewes brought \$7.25.

Golden Days Wallace Herd.

GRAND JUNCTION, Colo., June 28.—A deal was consummated this afternoon by which Charles H. Wallace secured of his entire herd of sheep in Walter T. Golden. There were two thousand head of ewes and their lambs in the flock, but the purchase price was not stated. Wallace resigned his office as chief of police last fall to go into the sheep business. He has announced no plans for the future.

Sheep Ordered Dipped.

An order to dip all the sheep in the state for the eradication of ticks has been issued by the state board of sheep commissioners. The order stipulates that the animals must be dipped between July 15th and October 15th of this year. All sheep brought into the state during that time must be dipped also.

FOUL BROOD IN BEES.

It is reported that considerable foul brood exists among the bees in DuSable and Utah counties, and some quarantines are considerably alarmed at the danger of the disease spreading and inflicting a serious loss to the honey industry.

UTAH BANKERS AT OGDEN

Most Successful Three Days' Session Concluded Last Friday.

OGDEN, June 24.—The most successful and interesting three-days' session of the Utah Bankers' association was concluded yesterday. The closing chapter of the occasion was a dance at Bertham Hall on Twenty-Fourth street this afternoon, in which most of the delegates and their wives and invited guests participated. At the conclusion of the session this afternoon automobiles were furnished and the visitors were taken on a trip through the manufacturing and residential portions of the city.

Officers elected for the ensuing year are: Elias A. Smith of Salt Lake City, president; J. G. M. Barnes of Ogden, first vice president; J. H. Karpovich of Heber, second vice president; and J. R. Shepard of Logan, secretary and treasurer. The executive committee elected to serve two years are: W. H. Brereton of Provo, C. H. Burton of Ogden and N. E. Nelson of St. Pleasant.

The addresses at the different sessions were well received by the delegates, special emphasis being given by the speakers to banking and allied interests. It was shown that the bankers should be united with all the better commercial interests of the state and should lend encouragement to the farmer, the stockgrower and all other lines of enterprise that make for a greater commonwealth.

A good way to get the confidence of the people is to keep saying that what is offered is the sort of stuff that will establish confidence.

Entries for all floats must be made by 10 o'clock Monday morning to Carl Gunderson, chairman of the parade committee.

GODDESS OF LIBERTY

Miss Flora Lee Selected By Committee Monday Night.

At a meeting of the Fourth of July committee Monday evening it was decided to drop the voting for the most popular lady for goddess of liberty on the Fourth and choose one from among the young ladies of the city, the voting having been going on for several nights at the Elko theater. The committee decided to select Miss Flora Lee to act in that capacity.

The Castle Gate band having expressed a willingness to be in Price on the Fourth, the committee has decided to invite them, agreeing to pay their expenses. This with the Price organization will make two bands here on that day. The Price orchestra will furnish music for the dance in the evening. During the evening from 7 to 8 o'clock there will be a concert at the City Park in which both bands will participate.

The refreshment committee decided to dispose of their concessions on that day to some one who would take them off their hands, and not bother with the serving.

A. J. Lee was authorized to try and get Castle Gate and Sunnyside to play ball here on that day. He promised to do all he could to bring them together.

Something like three hundred and twenty-five dollars has been collected in donations and this already has been apportioned to the different committees. Should there be any money left after all bills are paid it will go to the 24th celebration.

WILFORD SMITH'S COMPANY ORDERED TO THE BORDER

Wilford Smith, son of Mr. and Mrs. H. C. Smith of Price, who is serving in the 141st coast artillery corps, in writing his parents in Price tells of the movement of his company in a recent letter. On June 17th his company left Houston for Fort Sam Houston, Tex., where they will report to General Funston for duty on the border. Just before his company left Fort Strong, Mass., ten men of the company, including Smith, were ordered out for duty on an ordnance boat. Their duties will be to lay and take up mines along the coast for a short time, when they will join their comrades at the border. After leaving Fort Strong young Smith went on the mine planter ordnance boat to New London, Conn., and from there to Fort Totten, New York City, where he was when he last wrote. He states that he has taken in quite a number of sights in New York City and while there had looked the statue of the goddess of liberty "squarely in the face."

DISTRICT COURT

Frankie Pleads Not Guilty and His Case Is Continued.

District court has been in session the past week and numerous cases have been disposed of. A recess will be taken at the end of this week until after the Fourth, when Judge Christensen will again resume court here. In the meantime he and Court stenographer Alder will spend the holiday at their home in Mantle.

In the case of the state against C. A. Frank, charged with indecent assault committed several days ago, the defendant appeared in court and entered a plea of not guilty to the charge. His case was continued for the term. He is out on bonds of two thousand dollars.

The case of P. C. Sullivan against B. H. McDonald is before the court today on a hearing of the report as to the partnership business heretofore existing between the parties.

Eva Humphrey was granted a divorce from Thomas G. Humphrey and custody of their minor child.

Frank DeHass was granted an interlocutory decree of divorce from Antonetta DeHass.

CITY COUNCIL YET UNDECIDED AS TO OPERATION OF THE ELECTRIC PLANT

The city council met in special session Tuesday night, Mayor Horsley presiding and all members being present. The specific purpose of the meeting was to give further consideration to the operation of the electric light plant. As Mayor Horsley stated it, the only object of the council was to maintain the highest efficiency at the lowest possible operating expense. Whether this can best be obtained by the city operating the plant or by purchasing current at wholesale and distributing it through the city system is a question as yet undecided. The latter proposition, however, appears to have far the best of the argument.

The existing operating and maintenance contract expires June 30th, hence something had to be done as a temporary expedient. In view of this a motion prevailed to employ J. H. Munson to operate and maintain the plant at a cost of eight hundred dol-

lars per month, commencing July 1st, until such time as definite arrangements are made. The service to be rendered will be along the general lines of the existing contract, and will also include the operation of the city waterworks pump, the installation of new meters and the testing of all meters now installed. This will be a net saving of about a hundred and fifty dollars a month over the present operating contract.

In the event the city should decide to purchase current from the Utah Power and Light company at wholesale it will take ninety days to construct the line and install the necessary equipment.

There is some advertising that is worse than none. There are some advertisers who would profit by saying nothing rather than by saying what they do say. The best way to do a thing is to do it properly.

ADVERTISE

Every store has some one who is more or less interested in pushing the business. Every business is worthy to a greater or less extent of being enlarged. If the right person gets the business in hand and pushes in the right way he can make of that business a very decided enlargement and make for himself a very marked advantage.

ROMPED AWAY BY SCORE TEN-THREE

THE "JENX" IS STILL WITH THE PRICE BOYS.

Sunnyside Wins Over Locals in Last Sunday's Game—Small Crowd Out to Witness One-Sided Affair—Errors Were Many By Home Lads All Through the Game.

In the Carbon County league last Sunday on the Price diamond Sunnyside again won over the home team by a score of ten to three. The game was a very one-sided affair from the start, Sunnyside scoring three runs in the first inning and just kept it up during the game, scoring when they felt like it. However, Price made a noble effort, Tingley getting a three bagger and later scoring, and White and Ballinger each getting a run.

In the game between Helper and Castle Gate on the Helper diamond the latter team won over the rail-headers by a score of eighteen to one. Following is the score of the Price and Sunnyside game:

LAND BOARD LOANS THE STATE A QUARTER MILLION

That the state board of land commissioners has on hand \$250,000, which can be loaned on first-class security to farmers, and that applications for this amount have been received, developed Thursday when the state board of land commissioners visited the land board and sought to borrow \$250,000 at 5 per cent until December 31st to meet a bond issue, payrolls and similar obligations.

The land board had \$250,000 when the loan commissioners made their request, and after a discussion the land board granted the desired loan. The interest will go toward the state land school fund.

The land board's next regular meeting would be July 4th, but because of the holiday it has been postponed to July 6th, at which time the Delta Land and Water company will file an official and complete request for the land it desires under the Carey act.

All the difference between good and bad advertising is the judgment that permits the bad and the intelligent business sense which prompts the good.
